INTRODUCTION & MOTIVATION

Setting the context for your research

- Current trends/challenges in the maritime sector
- Why this topic is important and timely
- Relevance to industry, policy, or society
- What is at stake if this problem remains unresolved

BACKGROUND & LITERATURE

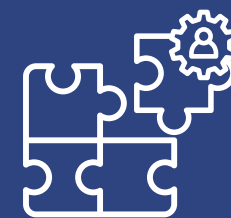

What we already know from existing research

Key Finding 1: Summary of relevant study
(Author et al., 2023)

Key Finding 2: Summary of relevant study
(Author & Author, 2024)

Research Gap: What remains unclear or
unexplored

RESEARCH QUESTION & OBJECTIVES

"What is your main research question?"

Research

Objectives:

Objective 1: To investigate...

Objective 2: To analyze...

Objective 3: To evaluate...

METHODOLOGY

How you conducted the research

Research Design

Quantitative / Qualitative / Mixed methods

Data Collection

Source, time period, sample size (N = XXX)

KEY FINDING 1

[Insert your most important chart/graph here]

[Your main result in one clear sentence]

KEY FINDING 2

[Insert supporting chart or regression table]

[Second important result statement]

ADDITIONAL RESULTS

[Insert supporting table or visualization]

Finding 3: Third important result with specific numbers

Finding 4: Fourth result (if applicable)

DISCUSSION

Interpreting your findings

How do your findings compare to existing literature?

What explains your key results?

Are there unexpected findings? Why?

What are the theoretical implications?

IMPLICATIONS

Academic

Contribution to theory and future research directions

Policy

Recommendations for policymakers and regulators

Industry

Practical applications for shipping companies

Society

Broader societal or environmental impacts

CONCLUSIONS

Main conclusion: [Direct answer to your research question]

**Key contribution: How this
advances knowledge**

**Limitations: Brief
acknowledgment of study
constraints**

**Future research: Next steps
to build on this work**
